

Health Preventive Measures

We are offering our programs applying health preventive measures which reflect the current Government of Ontario "Public health measures and advice".

By registering to our programs participants agree to fully comply with our Health Preventive Measures.

We are constantly monitoring public health conditions and adjust our preventive measures to lower the risk of the spread of communicable diseases.

Changes to our health preventive measures may take place at any time to reflect future developments in public health conditions.

All registrants must agree to follow our current and future health preventive measures before registering to our programs. Given our studio's settings our health preventive measures may go beyond the official recommendations for other public places.

Facial masks

Wearing facial masks is optional.

Entering the studio

Only class participants and iCreate staff members can enter the studio.

In case of having a positive COVID-19 test

If the registrant or anyone in the registrant's household tests positive for COVID-19 **do not come to the class.** Registrants can return to our classes only after they, and all their household members have fully recovered from the condition and test negative for COVID-19.

In case of showing symptoms of a respiratory condition

If the registrant exhibits any symptoms listed below - even without having a positive COVID-19 test - **do not come to the class.** Continue not coming to our classes until you have fully recovered from your condition.

List of symptoms to check for before each iCreate art class:

Fever or chills

Cough

Shortness of breath

Decreased or loss of taste or smell

Sneezing, runny nose or nasal congestion

Headache

Extreme fatigue

Sore throat

Muscle aches or joint pain

Gastrointestinal symptoms (such as vomiting or diarrhea)

If a program participant is showing any of the above listed symptoms in the class, he/she/they will be asked to put on a facial mask and remain in the waiting room until the pick up time.

Please fully adhere to the above listed preventive measures - the health and wellbeing of our students, their families, and our community is in your hands.

In all cases of illness please contact us to arrange the rescheduling of classes at least 1 hour before the start of the class.
